

Meeting Summary

****Key Points****

- The world faces complex problems, including climate change, pandemics, terrorism, energy crisis, and social inequities.
- These issues have trans-border impacts, making them a concern for international affairs, diplomacy, and international law.
- The rapid development of technology, particularly the metaverse, poses a significant challenge.

****Decisions****

None were made in the provided transcript.

****Action Items****

None were assigned in the provided transcript.

****Final Summary****

The speaker reflects on the complexities of the world today, comparing them to the challenges faced in the past. They highlight the impact of technology, specifically the metaverse, as a new and significant concern. The discussion serves as a thought-provoking reflection on the current state of the world and the need for diplomacy and international cooperation to address its challenges.

Transcript:

SPEAKER_1: problems of peace were every bit as convoluted as the problems of war.

SPEAKER_1: And to my father in 1946, the world must have looked hopeful but immensely complicated.

SPEAKER_1: And yet I wonder what my father would say about the world as we see it today.

SPEAKER_1: We are wrestling with climate change, pandemics, terrorism, energy crisis, social inequities,

SPEAKER_1: the name just a few and because of their trans border impact these issues too now fall within

SPEAKER_1: the ambit of diplomacy, of international affairs, of international law and what would my father have

SPEAKER_1: made of the impact of technology. In many cowboy movies the appearance of the hero or villain

SPEAKER_1: is often preceded by his shadow. We now have a new cowboy in town, heralded by a

SPEAKER_1: lengthening shadow. The shadow of the metaverse. Entrepreneurs are buying up

SPEAKER_1: real estate on it.
